## WHY CHOOSE PLANT BASED?

Climate change is happening right now. We can help by making small changes to our choices individually which will make a difference for us all. Eating less meat & dairy is one of the easiest changes we can make to help reduce carbon emissions. We've teamed up with some of the UK's most awesome meat free companies like This™ whose plant based chicken is not only amazing, but creates 50 times less CO2 emissions than 1kg of beef!
